# MODEL 50185

The **ESCO HAZLOK™ MAGNETIC SAFETY BARRIER SYSTEM (MODEL 50185)** delivers a fast, reliable way to establish clearly defined safety zones in tire and wheel service environments. Designed for real-world shop and field conditions, this retractable barrier features a high-visibility yellow and black caution belt that extends up to 30 ft., allowing technicians to quickly isolate active work areas during lifting, jacking, bead breaking, and wheel service operations.

The magnetic mounting system attaches securely to steel surfaces without drilling or permanent hardware, making setup, repositioning, and removal quick and effortless. Built with a durable ABS housing and nylon belt, the HAZLOK™ system is engineered for repeated daily use while maintaining a compact footprint in busy service bays. Whether in the shop or in the field, it provides a simple, effective solution to improve visibility, control traffic, and promote safer work environments.

## MARK IT. BLOCK IT. KEEP IT SAFE...

CAUTION MARKINGS

**30** feet long design covers entire work area with ease.

**MAGNETIC RETRACTABLE SAFETY BARRIER** with a 30 ft. high-visibility caution belt, designed to quickly mark work zones and improve safety in tire and wheel service environments.

Model # Description	50185 HAZLOK™ Magnetic Safety Barrier System
Product Type	Magnetic Retractable Safety Barrier System
Model Number	50185
UPC	816904026202
Application	Indoor / Outdoor
Mount Type	Magnetic
Belt Length	30 ft.   9.1 m
Belt Width	2 in.   51 mm
Belt Color	Black / Yellow
Housing Color / Finish	Yellow / Black
Overall Height	6-1/4 in.   159 mm
Overall Dimensions	5.9 in. H × 4.8 in. W × 6.9 in. L   150 × 122 × 175 mm
Weight	2.5 lbs   1.13 kg
Construction Material	ABS Plastic
Belt Material	Nylon

### APPLICATIONS:

- Tire and wheel service bays.
- Commercial truck and fleet maintenance.
- OTR and construction equipment service.
- Lifting and jacking zones.
- Bead breaking and tire handling areas.
- Temporary hazard and restricted access zones.
- and More...
