

XA14

HIGH CAPACITY OPEN
THROUGH ALIGNMENT LIFT

Model shown:
XA14N102RD
SURFACE MOUNT model

COMPACT ALIGNMENT BAY SOLUTION

Over **34% narrower** than
a standard four-post lift
with over **40" of space**
between runways for
greater vehicle access

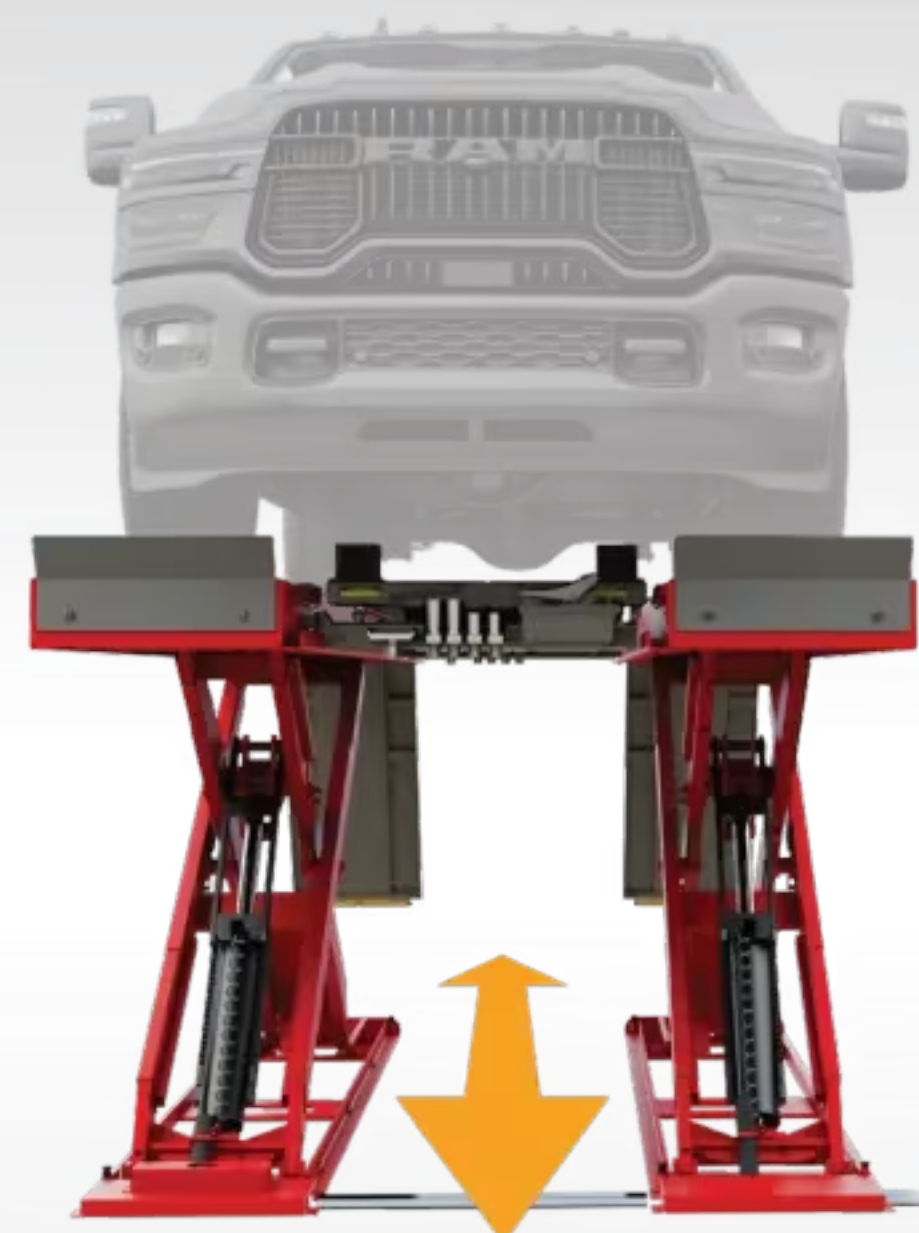

FEATURES:

- Recessed / surface mount options
- Two (2) 7,000 lbs. rolling jacks
- Two (2) turning radius gauges
- Intuitive console controls
- Air actuated rear slip plate locks
- Longer ramps standard
- Base plate leveling system

ALIGN WITH THE BEST!

VERSATILE SCISSOR LIFT

Runway choice, adjustable radius gauges,
and longer slip plates offer dealerships and tire
shops the versatility they need.

TECH-FRIENDLY OPEN THROUGH ACCESS

Open front and rear design
provides greater unobstructed
technician access to the
vehicle adjustment points so
wheel alignments, and other
repairs are easily performed.

72" OF TRUE UP/DOWN VERTICAL RISE*

Technicians have the height to
comfortably get repair work done.
True up/down movement
minimizes needed bay space.
